GERMAN MACHINE GUN DETACHMENT CREEPING INTO ACTION.

This picture, an actual scene on the western battle line, shows a light artillery and machine gun detachment moving closer and closer to the enemy's lines, in an effort to gain a position from which the Allies' trenches can be swept with gunfire preparatory to a charge. So effective is the fire of these light machine guns that the few men seen in the picture could withstand an entire regiment if the latter charged them across an open field. The men in the back ground are seen signalling their comrades in the rear for a slow advance.

MADAME CALVE GIVES CONCERT IN AMERICA FOR FIRST TIME IN YEARS TO AID LAFAYETTE FUND AND FRENCH RED CROSS.

Madame Emma Calve, greatest of all Carmens, and famous the world over where grand opera is sung and patronized, is a patriot in the true sense of the word—a lover of her country. And she has done all in her power and is still devoting a good deal of her time to relieve the suffering of the men who are fighting to defend her native country. She is an enthusiastic supporter of the Lafayette Fund, an organization which is sending comfort kits of warm clothing to the French soldiers in the trenches. To swell the funds of the Lafayette Committee and the French Red Cross, Madame Calve gave a public song recital on Thursday, Feb. 18th, which included some of her best numbers of "Carmen" as well as other songs of her own selection. This was a notable event as Madame Calve has not been heard in America for a number of years.

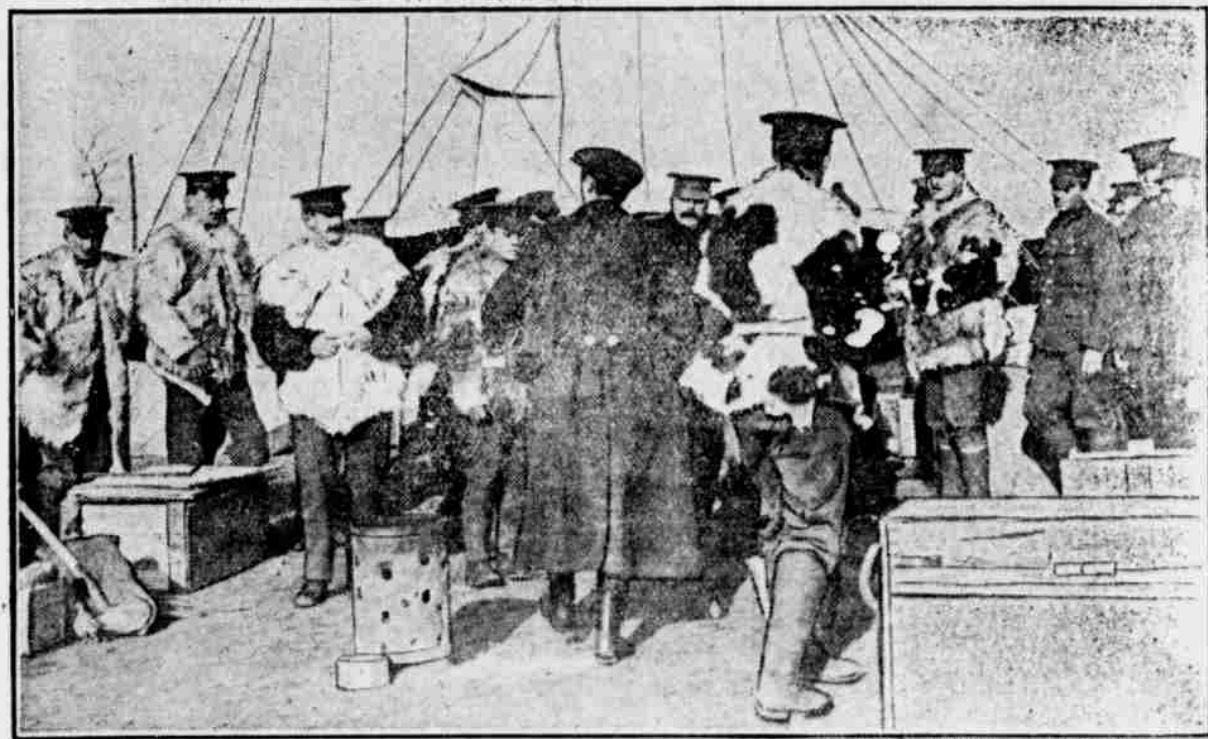

BARON BURIAN NEW AUSTRIAN MINISTER OF FOREIGN AFFAIRS.

The new Austrian Minister of Foreign Affairs has a heavy load to cope with in his new capacity. It is claimed that his appointment was caused by the ill-feeling in Hungary against the Austrian conduct of the war. The Baron being a Hungarian, appeased the feelings of his countrymen and set about to secure better organization of the defense against Russia. He achieved his purpose with the aid of the German General Staff and General von Hindenburg, whose constant drives at Warsaw finally forced the Russians to give up their hold on Hungary.

BELGIAN AND BRITISH CAVALRY IN THE TRENCHES.

Winter in the trenches with the British Colonial Horse, a cavalry division now attached to the 3rd Belgian Landers. Members of both the British and Belgian troops are seen as they appear wintering in the same trenches.

KITCHENER'S SIX MONTHS' TRAINED ARMY AT ETAPLES, FRANCE.

This picture shows a scene in the commissary department of the big reserve camp in Etaples, near Boulogne, France. Conservative estimates place the number in this vast camp at 300,000 to 400,000 fully trained and perfectly equipped men. Six months ago they were raw recruits without any military knowledge whatsoever. Six months of rigorous training has turned them into dependable, well disciplined soldiers. It is to Kitchener and his "Big Army" that the Allies are fervently looking forward to crush the backbone of the resolute German military machine.

FRENCH INFANTRY ON THE ALERT.

About three members of each regiment usually compose the advance scouts whose duty is to go about a quarter of a mile ahead of the main body of troops and to make sure that the territory is not in the hands of the enemy. These scouts are invaluable. They are so trained in their work that they can easily discover mined grounds or pitfalls. When these scouts find any of the enemy's entrenchments they will try to ascertain their strength and report to their commander.

## GRAND JURY REPORTS.

(Continued from page 1.)

(The next four paragraphs are omitted.)

The report concludes as follows: "We commend the Princeville Plantation, who we understand own the premises on which stands the Hop Sing place, in their decision to close up this notorious resort; and we respectfully call the attention of the Princeville Plantation, who we learn are also the owners, to the iniquitous character of the premises occupied by one, Azeka, with the request that if possible they be also cleaned up."

"A committee of this Grand Jury has investigated the liquor situation there its report being herewith attached."

"At Kapaa more superficial examination indicated that conditions were much the same as at Hanalei; and we are returning two true bills against the deputy sheriff John Hano, on the charge of bribery."

Respectfully submitted:

## SPECIAL LIQUOR REPORT.

The special committee on liquor made the following report, which is made a part of the general report:

Gentlemen:

Your committee appointed to consider the advisability of recommending change of Liquor Commission Ordinance by which retail Liquor Licenses are denied, in the County of Kauai, beg to report that we have made pretty general inquiry as to public sentiment in the matter, and find that the overwhelming conviction is that the present policy of granting a limited number of wholesale licenses and no retail licenses be continued, with the request that if possible, the delivery of liquor to customers be prohibited.

There is, we believe, no assurance that "blind pigs" would cease to exist if retail licenses were granted, and in addition we would have the notorious evils of the open saloon, treating, brawls, etc. Perhaps, if we had a thoroughly efficient police, those places could be kept in order, but with existing inefficiency they would be plague spots of corruption.

(Signed)
